

My Summer Adventures Journal

You and your child could create the best and most wonderful memories if you intend it to be—and so it is. Whether you're going on vacation, staycation or no vacation-like days at all, the adventures you intend to take are what your child will treasure for years to come. So are you ready? Also, if your child is able to read and write, they can fill out this space. Otherwise, ask them to narrate as you write what they're telling you. Try not to chime in!

About my day...

Grateful for...

What I saw...
