

The Thesaurus Writing Game

Instructions: This isn't your typical synonym game, where you get a word and write down words similar to it. That's too regular! No, we're making sure this has a *spiritual* spin to it. This game is sort of a synonym game, but we insist that instead of a dictionary or thesaurus, you use **your gut and instincts** instead. Write down what the word feels, smells and even tastes like vs. what it really means. Ready? Also, don't forget to check out thewritingorbit.com for more astrology + self-help worksheets.
